

Section	Administrative Procedure Number
Transportation Procedures	RCJTC AP.01.23
Administrative Procedure Title	
Equipment on Vehicles Procedure	
Date	Revised
December 20, 2013	

Equipment related to regular school programs may be transported by the pupil on the vehicle provided that the items can be held comfortably on the pupil's lap and are encased or protected by guards for sharp objects. The driver may also designate a safe location on the vehicle for such items. The driver shall refuse to transport items deemed to be unsafe, not the student.

In the case of field trips, special arrangements may be requested by the principal, in advance, in order to transport equipment specifically related to the outing.

Pets, firearms, ammunition, explosives, dangerous weapons, drugs, alcoholic beverages and any glass containers (not properly secured to adequately protect and contain the breakage in the event of a collision to limit the possibility of further injury) shall not be permitted on the vehicle.
