

Section	Administrative Procedure Number
Transportation Procedures	RCJTC AP.01.31
Administrative Procedure Title	
Duration of Route Procedure	
Date	Revised
December 20, 2013	

The staff of RCJTC shall consider the duration of the individual route when planning transportation routes. The amount of time spent aboard the vehicle by students shall not normally exceed:

- 60 minutes – Junior Kindergarten to Grade 6**
- 75 minutes – Grade 7 to 12**

The length of the ride will be calculated based on the transportation software and will only consider “normal” traffic conditions. Construction, accidents and inclement weather may cause the trip to exceed the above noted times. If any construction is expected to be long term and affect the route on a continuous basis the routing will be reviewed to determine if the time can be reduced.
